Term life assurance cover for groups.

Product Governance Process

We operate a robust sign off process for all new products and material product changes, with oversight the responsibility of the **Product Review Committee**.

Products are reviewed at regular intervals, scheduled based on a number of factors such as the size, scale, contractual duration and complexity of those insurance products, their respective distribution channels, and any relevant external factors such as changes to the applicable legal rules, technological developments, or changes to the market situation. Such reviews will be undertaken every 12 months or more frequently where the potential risk associated with the product makes it appropriate to do so.

Fair Value Statement

We have conducted a full assessment of this product and are satisfied that it offers fair value to our clients. Whilst we do not support or encourage the addition of fees (as we include commission for Brokers and Advisers within the price), we would not expect any fees that are charged to exceed the higher of the maximum amounts or percentages detailed in the table below: the exact amount must be agreed with the customer before conclusion of the contract.

Customer correspondence must clearly state the premium, any taxes and fees charged

by the intermediary. If a distributor is unable to meet this criterion, please contact us.

Product	Maximum fee (£)	Maximum fee (%)
Group Life Cover	£500	10%

If the fee charged exceeds this recommended maximum the distributor will need to disclose the details to us so we can make an individual assessment to ensure that the product still provides fair value to the client.

It could be that a distributor is advising on a portfolio of products and the client will pay one combined fee for all of that advice, so it is impossible to allocate the fee to each individual product or service.
